Smyth

Founder and Chief Executive Officer
Full Frame Initiative

Wellbeing

The set of needs and experiences universally required in combination and balance to weather challenges and have health and hope.

- ✗ Hierarchical
- ✓ Context and environment determine access to wellbeing significantly more than individual choice and behaviors.

Local Government Leadership

Resilience Hubs

Tallahassee, FL

Augmented existing public facilities to better serve neighborhoods before, during, and after a crisis

- Year-round health & social services
- Sustainable & climate responsive design
- Emergency preparedness & response
- Resources to build neighborhood's adaptive capacity
